36th International Symposium on Microscale Separations and Bioanalysis

SAVE THE DATE!

Welcome to MSB 2020, in Saint Malo, France

The 36th International Symposium on Microscale Separations and Bioanalysis will be held at the Congress Center “le grand Large” of Saint Malo, Brittany, France. Join us 5-8 April 2020 and extend your stay to enjoy some of the nautical, sportive and wellness activities and sights available in this nice Emerald coast of Brittany.

At the eastern end of the Emerald Coast, about 50km from Saint Malo, is “Le Mont Saint Michel”, a fabulous medieval city perched on a rock connected to the mainland by a causeway. One of the most visited tourist sites in France, “Le Mont Saint Michel” is listed as a UNESCO world heritage site.

MAIN TOPICS

- Portable and purpose-made devices
- Point-of-care devices, innovation in microfluidics and precision medicine
- Miniaturized sample preparation techniques
- Organ- and cell-on-chip
- Biosensors, instrumentation and applications
